## PROFESSIONAL SERVICES GROUP

The help you need, when you need it.

Sometimes you just need an extra set of hands - or two. Whether it's a one-time project you need to accomplish or an ongoing labor-intensive effort, our professional service group can act as an extension of your team to get it done. Here are a few ways we can help:

- › **Data transformation.** Formatting your employee data for your plans provider can be time-consuming and tricky, especially when you have to integrate information from multiple business units or multiple countries. Our team has the experience and resources to tackle this labor-intensive task.
- › **Support for corporate actions.** Corporate actions are complicated. Let us provide guidance on how the action will affect the plans you offer and provide solutions to help you maintain the value of the options, grants and awards for your executives and other employees.
- › **Outsourcing for plans projects.** Special projects come up. We can act as an extension of your team to collaborate on efforts including plan implementation, organization of your mobility tracking and even general data clean-up.

Rely on our resources and expertise to increase your efficiency – and get results.

**Talk to your relationship manager today to find out how we can help.**
