

IMPROVE COMPLIANCE FOR YOUR INSIDER PROCESSES

COMPUTERSHARE INSIDER MANAGEMENT SYSTEM

PRODUCT FACTSHEET

COMPLIANCE MADE EASY FOR INSIDER MANAGEMENT

Computershare Insider Management System (CIMS) is a secure, online solution which makes it easy to manage your insiders and comply with the increased regulatory requirements introduced through the Market Abuse Regulation (MAR).

CENTRALISE INSIDER MANAGEMENT

Centralise your insider lists in a single, secure database. Utilise CIMS to comply with MAR by:

- > Following compliant report format
- > Tracking all insider information
- > Creating deal specific and permanent insider lists
- > Recording insider consent and acceptance of insider policies

COMMUNICATE AT A MOMENT'S NOTICE

The CIMS platform allows you to automate communications with your insiders through:

- > Customised templates
- > Insider status notifications
- > Insider trading window notifications

STAY AHEAD OF REPORTING REQUIREMENTS

Comply with MAR reporting requirements through:

- > Auditable data tracking
- > Historic insider lists with an electronic record going back five years
- > Reports created in the correct format for your regulator

EASY FOR INSIDERS TO WORK EFFECTIVELY

Insiders have their own portal which allows them to:

- > Review and update their data
- > View insider status: permanent/deal specific
- > Accept/view new company policies
- > View trading windows
- > Record transactions
- > Access stock information and company announcements
