

## TaxConnect with EquatePlus

# Simplify share plan tax calculations for your globally mobile employees

If your company has globally mobile employees participating in compensation share plans, you need to be sure they are meeting their global tax obligations. This is especially important with tax regimes differing by country, the increased scrutiny by tax authorities, and the risk of penalties for non-compliance.

### Computershare has developed a simple, intelligent solution.

TaxConnect, available on the EquatePlus platform, seamlessly connects your employee share plan participants with leading global tax advisors for real-time tax estimates. Your employees' tax liabilities are accurately calculated to ensure compliance with local tax regulations.

TaxConnect directly links share plan participants on EquatePlus with top leading tax advisors.

#### Simplify tax calculations

Participants can see their estimated tax liability before completing a transaction, helping them make more informed decisions.

#### Connect with leading global tax advisors

The solution currently links to Deloitte and EY.

#### Always on

Computershare works with your tax advisor to maintain the solution, ensuring TaxConnect is always available to deliver timely tax calculations.

#### Access intelligent technology

The solution uses logic to determine which participants can go through the standard calculation and which need to be routed to the tax advisor.

#### Easy implementation

The open architecture of the standard API plugin easily integrates with your provider.

#### Accurate reporting

Your payroll and plans teams can access the information they need for accurate reporting and to stay compliant with local tax regulations.
