Assistant Vice President
Plan Managers
Employee since 2007

The graduate program offered me a wonderful learning opportunity in a variety of business knowledge. I've gone from a fresh graduate knowing nothing about equity share plans to being a share plan professional today. The diversity of business exposure and practical experience has empowered me to pursue continuous growth and development.

There's a fantastic team culture with a great open-office environment and it is a pleasure working with a fun and dynamic team here.

Everyone works hard and plays hard and I get to do things that will further to build my skills, knowledge and career to the next level.

Barry Lau
Assistant Vice President
Client Services
Employee since 2008

I kicked off my Computershare career as a Client Services Officer in 2008. Throughout my career at Computershare I have been provided with opportunities and am encouraged to take on new responsibilities.

The team spirit here is brilliant as people around are always willing to help and give quality advice. Their full support and trust in me are the reasons for the job satisfaction and sense of belonging that I have. From time to time, we are given trainings on a variety of skills, product knowledge and regulatory topics to help us meet our job duties as well as to support career growth. We also have regular social and sports activities. To me, working in Computershare continues to be a challenging yet exciting experience.

SUMMER INTERNSHIP

We believe in our young talent. And that's why our interns do not simply sit in the office and listen to our orders. Instead, you will be joining one of our core business lines as a team member and could possibly lead your fellow interns in preparing and providing the best meeting experience to our clients, investors and shareholders in the fast-paced and exciting Annual General Meeting (AGM) season.

Check out this video to see what the summer interns have experienced this year and what they have learnt. (https://www.youtube.com/watch?v=_g2m-8s0wFpg)

"To use a word to sum up the internship experience in Computershare, I would use 'Challenging'."
